Professional Summary

Results-driven Computer Science undergraduate with progressive project management experience across agile software development, creative, and digital product environments. Proven ability to coordinate cross-functional teams, manage sprint lifecycles, and deliver tech projects on time and within scope. Seeking to leverage technical and project leadership skills in a fast-paced, innovation-driven engineering organization.

Experience

StackUss

Karachi, Pakistan

Associate FullStack Developer

May 2025 – November 2025

- Contributed to the development and maintenance of web application features across both frontend and backend components.
- Implemented and customized UI elements while integrating them with backend APIs to support application functionality.
- Performed database updates and basic debugging tasks, assisting in resolving issues to maintain application stability.
- Coordinated with team members to understand requirements and complete assigned tasks within defined timelines.

Bytewise Limited

Karachi, Pakistan

Backend Intern

February 2025 – March 2025

- Assisted in building and maintaining backend services and REST APIs to support core application functionality.
- Performed database operations including queries, updates, and schema level tasks to ensure accurate and consistent data management.
- Participated in debugging and troubleshooting backend issues, helping to identify root causes and maintain application stability.
- Collaborated with the development team to understand feature requirements and deliver assigned backend tasks within set timelines.

BrandWave Digital

Karachi, Pakistan

Associate Project Manager

May 2024 – August 2024

- Managed creative and design projects from initial concept through final delivery, overseeing timelines, resource allocation, and stakeholder feedback cycles.
- Maintained brand consistency across all project deliverables by establishing clear creative briefs and structured review processes with designers and clients.
- Coordinated parallel workstreams for multiple client accounts simultaneously, ensuring high creative standards were met on schedule.

TrustZon's

Karachi, Pakistan

Junior Project Manager

July 2023 – October 2023

- Supported planning and execution of software development projects, documenting requirements and relaying client feedback to development and design teams.
- Maintained alignment between client expectations and deliverables through proactive communication and structured follow-ups, reducing scope creep.
- Developed core project management competencies including stakeholder coordination, task prioritization, and cross-team collaboration in a fast-paced startup environment.
